Summary

Data Engineer with 4+ years of experience designing scalable big data pipelines, optimizing credit risk analytics platforms, and migrating legacy systems to cloud (GCP). Proven track record in automating statistical modeling pipelines, and reducing reporting time by 50%. Certified GCP and Azure Data Engineer with expertise in Python, PySpark, BigQuery, and Airflow.

Experience

Data Engineer, TCS – Gandhinagar, Gujarat July 2025 – Present

- Modernizing a data processing pipeline by migrating legacy SAS workflows to PySpark on on-prem servers.
- Preparing migration to Google Cloud Dataproc (serverless) to reduce infrastructure overhead and improve scalability.
- Partnering with business and tech teams to ensure seamless transition with high data quality and compliance.

Data Engineer, TCS – Gandhinagar, Gujarat July 2021 – Jun 2025

- Migrated one of the top U.S. based credit rating system from SAS ETL to Python & GCP pipelines, cutting costs and improving efficiency by 50
- Designed scalable ETL pipelines in BigQuery processing 100M+ records daily, supporting credit risk analytics.
- Optimized BigQuery models with partitioning and clustering, reducing query cost and latency.
- Automated reporting workflows with Python/xlsxwriter, delivering statistical insights to stakeholders.

Teaching Assistant, DAU – Gandhinagar, Gujarat Aug 2019 – June 2021

- Assist students with practical labs in C++, OOP concepts, and System Programming/Shell Scripting

Education

M.Tech in Machine Learning DAU Gandhinagar Aug 2019 – June 2021

- CPI: 8.71/10.0

BE in Electronics & Communication, GEC Gandhinagar June 2014 – May 2018

- CGPA : 7.92/10.0

Certification

- Databricks Certified Data Engineer Associate
- Google Cloud Professional Data Engineer
- Google Cloud Professional Machine Learning Engineer
- Azure Data Fundamental Certification

Technical Skills

Languages: Python, SQL, SAS, Perl, C++

Technologies: PySpark, Azure Databricks, Pandas, GCP Cloud, Azure Cloud, GCP PubSub, Airflow, Apache Kafka

Database: SQL, BigQuery

CI/CD: Git, Docker(Basic)

Tools: VS Code, PyCharm, Jupyter Notebook
